

Australia Indonesia CEPA

On behalf of the Faculty of the Professions, University of Adelaide, I write to express my strong endorsement of the proposed Comprehensive Economic Partnership Agreement. This agreement is valuable for our (higher education) sector since it will further enhance our ongoing partnership and exchange in the areas of teaching as well as research. By facilitating a freer movement of skilled people between the countries, and by opening up Indonesian education sector to Australian investment, this agreement will enable our mission of delivering a truly borderless education experience to students from both countries.

Assoc Prof Mandar Oak,  
Deputy Dean (International)  
Faculty of the Professions  
University of Adelaide
