

4 April 2013

It is time to stop and rethink what the important things in life are. The reef is beyond words and we must all take stock and seriously choose better for the future. I know we don't have to bombard you with facts on the importance of this area, it is one of the Wonders of the World, so please take all of these facts on-board and also dig deeply and really connect with the heart of this sacred place. Please keep the reef safe. If we don't take a stand now, who will? The time is now, we don't get any second chances. Thank you for your time.

Kind regards

Jim & Katie Donohoe
