

Comments on "Migration Amendment (Visa Capping) Bill 2010"

This bill is unfair, because government should behave different from business man, government should have its own good reputation. Lots of friends of mine have already applied PR, and they are planning their lives in Australia, which includes got cars, houses, a steady job. Therefore, in this situation, it is not fare for them if government clear the Visa application. I really appreciate if you can take this situation seriously. Thank you so much
