

Submission to:

Native Vegetation Laws, Greenhouse Gas Abatement & Climate Change

States & Commonwealth to repeal all Native Vegetation laws and restore landOWNERS rights to farmer their own land

Pay “FAIR” compensation for land – “you want it – you pay for it”

Recognise financial costs in maintaining land – including original costs, fencing, rates etc.

Why should LANDOWNERS continue to pay rates on land the Government has stolen to top up their bad management

ANN BARRY
