TO THE SENATE ENQUIRY INTO STERLING FIRST

Attached is a copy of of correspondence relevant to our case.

Issues are:

1. The continual assurances that a stock exchange listing was imminent never eventuated despite all the assurances, delaying tactics and deceit.
2. The drying up of the “dividends” that were assured.
3. The total lack of correspondence
4. The inability to get our money out or sell our shares.
5. The closure of offices and knowing our money was “gone”
6. The total silence from Ray Jones about the collapse and where the money is. Where did our money go?
7. The financial regulators have let us down.
8. ASIC’s work has been too slow and never warned investors of the risks of this company!
9. ASIC has failed in consumer protection and advocacy and their oversight of the Sterling First Trust.
10. ASIC must prevent this happening in the future and access to justice for us investors is paramount.
11. HELP!

Please return out \$10000 to as soon as possible.

The pain and suffering at losing this money is so difficult to express.
