STRATEGIC PLAN
2013-16

Our vision for
the future

For over 90 years UnitingCare Wesley Port Adelaide has been at the forefront of building communities. Our 900 plus staff and 160 volunteers work every year to assist over 27,000 people across the life continuum, from the very young to the elderly. We offer diverse solutions across many disciplines and sectors, delivering high quality person centred service.

We are proud of our history and our tradition of being a responsive and proactive community organisation that not only focuses on the 'here and now' but plans for the future needs of South Australian communities.

We are excited about our future and have developed a three year strategic plan that will build on our strong foundations, align to new reforms in aged care, mental health and disability and importantly, respond to the local needs of local people.

Over the next three years we will be an organisation that:

Builds strong and socially inclusive communities.

We know that when people are given the opportunity to fully participate in community life, there is a greater likelihood that:

- » Children will be safer
- » Families will be stronger
- » Young people will be equipped to achieve their potential in adult life
- » People from Indigenous and culturally and linguistically diverse backgrounds will thrive
- » People with disabilities/mental illness will have greater opportunities to participate within their communities

Advocates for positive social change.

We believe that everybody has the right to participate and flourish no matter their age, their gender, their history, their cultural background.

Delivers person centred, quality services that make a positive difference.

We know that improving the economic, physical and social circumstances of people in need will help to break intergenerational poverty and build community resilience. To do this, solutions needs to be responsive to the individual and service delivered to the highest professional standards.

Grows our capacity to innovate.

We recognise that when we measure the differences we make in our clients' lives and in the communities we work in, our responses will be innovative and relevant.

Builds sustainable and strong foundations.

We believe that by investing in our people and maximising our resources we can strive for a just and compassionate community in which all people participate and flourish.

Objectives & Strategies

01 BUILD STRONG AND SOCIALLY INCLUSIVE COMMUNITIES

Strategies:

- » Integrate service delivery models locally, regionally and state-wide
- » Develop mutually beneficial partnerships to improve services and outcomes
