

PARLIAMENT OF AUSTRALIA

Senate Select Committee on Electric Vehicles

Public hearings

Adelaide, 10 August 2018

Canberra, 17 August 2018

The Senate Select Committee for Electric Vehicles will conduct public hearings in Adelaide on Friday 10 August 2018 and in Canberra on Friday 17 August 2018.

Committee Chair, Senator Tim Storer, said:

“This is a unique opportunity to think about how we prepare for a transformation we know is coming, and to hear from businesses, academics, and members of the public, who are already working to help Australia embrace the opportunities around electric vehicles.”

“This is not just a motor vehicle revolution, but a change that will affect Australian society and the economy more broadly. With good policy, we will see opportunities for Australian mining, advanced manufacturing, and supply chain activities, as well as massive benefits for consumers, public health, our energy security, and the environment.”

Committee Deputy Chair, Senator Kim Carr, said:

“Australia has enormous manufacturing capabilities and we don’t want to see them squandered. The Australian Parliamentary committee process provides a great opportunity for Australian citizens to provide advice directly to Parliament.”

The Committee will hold further hearings in Melbourne on 30 August and Brisbane on 27 September.

Submissions were due on Friday 27 July 2018, however, the Committee would welcome late submissions by email.

If you would like to make a submission, you may find it helpful to read the guide to making a submission available on the Senate website: [Preparing a submission to an inquiry](#).

If you have questions, or need more time to write your submission, please contact the secretariat.
