To the Senate Enquiry Social Services Legislation Amendment (Cashless Debit Card Trial Expansion) Bill 2018.

I would like to express my opinion about the expansion of this trial.

I feel that it doesn't need to be expanded until the other trials are completed and have been evaluated.

There is enough evidence all ready to show that it is causing hardship on some people who have been placed on to this card that I feel an extension would only cause more hardship on others.

I feel that the removal of cash from a place like the seat of hinkler would place a very large strain on the local economy.

- 1/ The local farmers who sell on the side of the road will feel it
- 2/ People trying to sell second hand items will feel the loss of buyers.
- 3/The local markets will also lose buyers.
- 4/School fetes will lose out as some of the people targeted here will probably have school age children and wont have the cash to buy or participate
- 5/ Children will miss out on school activities or buying second hand items from schools as the parents wont have cash.
- 6/ Local small businesses who deal in cash will lose customers.
- 7/ People wont be able to buy online thus pushing their cost of living up.

The Bundaberg mayor has come out against the cashless welfare card because of the cost. https://www.theguardian.com/australia-news/2018/may/21/bundaberg-mayor-turns-against-high-cost-of-cashless-welfare-trial.

This will split Bundaberg in two sections. One side will allow people to manage their own affairs while on the other side of the city peoples affairs will be managed by a private company paid for by the taxpayer.

Most polls done in this area show an approximate 80% against the card.

The last senate enquiry on the card had the same type of figures 80% against.

Social Services Legislation Amendment (Cashless Debit Card Trial Expansion) Bill 2018
Submission 12

Lately there has been a ground swell of people being opposed to this card,

There has been a lot of untruths told by the minister about the people against this card in hinkler ..I for One live in hinkler ,I resent the fact that he is calling me a union hack from melbourne or sydney .. I and many others have been against this card from the very beginning because it takes away basic human rights which should never happen in a country like AUSTRALIA .

Thank you for your time
