

Dear

I have lived in Sydney for 2.5 years and applied the 885 Pr applications for several months. I am very confused myself and my future. I have bought a new apartment, however I am worried about that , not happy. The reason is that one day my application is cancelled I should sell it and leave. No one can live in an unstable situation!

Please stop it! I want to buy a new car but I can't . I want to have a baby but I can't. I want to apply a formal job but I can't..... I can't.....
