

To whom it may concern,

As a member of the community I would like to see labeling on products reflecting the actual components of the product. I would like to decide whether my purchase may have a negative effect on animal welfare or the impact a certain product may have on our environment. I have a right to be informed of all chemicals and additives that make up a product as I have the right to decide if I will purchase a product. Not providing consumers with transparent labeling prevents us from making informed decisions when purchasing products. It is our money. We are the consumer.

Kind Regards

Mary
