

## Modern Slavery Research Consortium

### *Research Briefings*

Editor's note: The Modern Slavery Act has been on the statute book for two years and it is clear that the number and scope of research projects, including work done by PhD students and within Third Sector organisations looking at aspects of modern slavery in the UK is growing. The MSRC instituted this series of Research Briefings early in 2016; each summarises a planned, current or recently completed study of some aspect of modern slavery, undertaken by academic or policy researchers or by NGOs. Queries about the specific studies reported here should be addressed to the first-named researcher; any queries about the MSRC or offers of further Research Briefings (which should normally be no more than two sides of A4 in length with a font of 12pt at least and describe a project about to start, in course, or recently completed), should be addressed to Gary Craig at

Copies of any of these are available by email from the same address.

## 2016

No. 1 *Corporate approaches to addressing modern slavery in supply chains:  
A snapshot of current practice*

Quintin Lake, Jamie MacAlister, Cindy Berman, Matthew Gitsham, Dr Nadine Page  
(Ashridge Business School and Ethical Trading Initiative)
