

Hi There,

I came in Australia as student in 2007.I have done Cert.III and diploma in horticulture from NMIT TAFE at Greensborough campus.I have been working as nursery person in wholesale nursery.I am gaining skills and experience in my field so i can work well in horticulture field.I am thinking to study further in landscaping. So,i can start my own business and give better service to my clients.I am planning to make my better future here in Australia.If government will change any rules regarding migration,it could effect my situation.I am trying to make myself better for bright future.
If something happen wrong,it could spoil my future.

Thanks

Kind Regards
Jasbir Singh Munday
