

To whom it may concern,

Please consider IRGC as a terrorist organization and keep it in a terrorist list. For too long, IRGC has operated with impunity, spreading violence and fear and supporting extremist groups and threatening global stability.

In recent Revolution in Iran, they also have killed many Iranian citizens, and they are still murdering people in Iran.

Thank you so much for your support in helping us to live in a peaceful and free world. Free world of fear, violence, murder, hatred and anger.

Regards,

Niyosha
