

To whom it may concern,

Please i urge you to pass the Family Law Amendment Act to help protect all children across Australia. No child should be subjected to abuse from any adult whether your the child's mother, father, grandparent, aunt or uncle. Too many children are being put into the care of the abuser without having a say. It is time we the Australian public stand up for children and their rights to be safe. Protect the next generation by standing up for them now. Please help pass the Family Law Amendment Act for the sake of Australian children.

Thank you
