Joint Standing Committee on Treaties

Public hearing

Issue date: 7 October 2016

Downward pressure on IT pricing

The price of IT products in Australia will today be examined as the Joint Standing Committee on Treaties holds public hearings in Canberra.

Committee Chair, the Hon Stuart Robert MP, says the committee will examine an amendment to the schedule of concessions under the General Agreement on Tariffs and Trade, as well as a protocol to amend the air services agreement with Bahrain, a new air services agreement with Kuwait, and the Convention on Choice of Courts.

“By further liberalising international trade in information technology products, the recently negotiated amendments to the schedule of concessions will put downward pressure on the price consumers pay for some IT products in Australia, with flow-on effects up and down the supply chain,” Mr Robert says.

“Air services agreements, the schedule of concessions and the Convention on Choice of Courts will also have important effects for Australia.”

Mr Robert says people interested in the Committee’s inquiries can visit the Treaties Committee’s [website](#) for further information.
