

Dear Sir/Madam,

My name is Fernando Dias, 48 yo Telstra shareholder and very angry at the injustice of this government towards Telstra. They cannot just take what they just sold to us without compensation.

Mr Thodey's smooth approach is giving the mob in government the courage to force Telstra to split, take over the infrastructure and call it NBN.

The ACCC and Senator Conroy are concern about Telstra having a monopoly, but in the meanwhile they don't want Telstra competing with the NBN. This is hypocritical.

I always voted Labor, but because of the way this government is treating Telstra, I will vote Liberal for the first time.

I want that the government to disclose the plan for the NBN. As a taxpayer, I am concern with the level of secrecy on how the government intends to build the NBN and how much will cost to set it up.

Please help us, individuals with no voice.

Kind Regards
Fernando Dias
