

Subject: Senate Submission

To whom it may concern,

As a member of dental practitioners I would like to use this opportunity to express my concern that current legislation makes the health professional liable for any minor administrative oversights. The legislation needs to protect dentists who have provided good treatments but have overlooked some aspects of paper works. As a newly graduated dentist I wish there were more clear and readily available resources which state the necessary requirements to fulfill when claiming for CDDS patients.

Yours sincerely
