

1. Question on notice.

- Consultation on subordinate legislation, notably exemptions.

The HSU has not been invited to any consultations as yet on the subordinate legislation to this Bill, noting that it is yet to be debated, and voted on in the Senate. We are confident that at the passage of the Bill, the Department will hold relevant consultations for stakeholder feedback. We also note that Minister Wells has convened various roundtables with aged care workers and providers, including one last week ahead of the upcoming Jobs and Skills Summit. We believe this is indicative of the commitment to sector-wide consultation moving forward.
