

Respected sir/madam,

I am permanent resident here,yesterday I shocked whn I heard news about overseas student that they are not able to apply permanent residency any more.Government going to pass any bill which is going to remove all students and those applicants who already apply PR or TR.which does nt seems fair.I know too many people here who already applied PR ,some of my friends did too much hard work ,spend too much money and they also lent money to pay their fees.they have already faced too much struggle.one of myfriend she got dipressed and vey sick now after she knows that after 4 yrs struggle she has to go back and she already applied PR.I am living here since many yrs i never heard that much strict immigration rules.This email request is not just from am sitting with 15 friends who are feeling sorry to all overseas applicants.we all doing requset to australain government pls dont spoil their future, even who already waiting there PR.we always appreciate austalian policies and rules we leading very happy life here and we hope, australian government do justice with the poor students.

Thnanks & regards,

Mrs bhuller and Friends,
