Dear Sir / Madam

Re Senate Committee Inquiry into Native Veg laws,
Greenhouse Gas Abatement and Climate Change Measures.

I started work and paying tax at 13 Some
50 years ago. my aim was to become a Farming
Family Man.

Married early moved to farm in 1966 Then
lost house and all possessions in 1968 moved back
to Sydney and saved up again. then in 1980 moved
back to larger farm in Pappinbarra with my family -
Still worked away to pay for the farm and raise
our family. Now that I have been denied to
farm, my place, with so called freehold title
how do I explain to my wife (who I also care
for as has Parkinsons) children and grandchildren who
have worked with me and strived to own our piece of
Australia. We have looked after this our home for 30 years.
Approx $\frac{1}{3}$ we allocated to the Environment but then you took
another $\frac{1}{3}$ making it a huge burden on me and
my Family.

In 1991 I was a quadriplegic and had 4 $\frac{1}{2}$ vertebra
taken from my neck (got back to work 12mths) 2009 Accident
broke tailbone Twice, Back broken 3 places, Teeth broken rib + heart damage
(got back to lighter work 6mths)
Now to be denied my freehold home etc!

Feeling: Annoyed, Frustrated, Upset, Sold out by my own
Country, Just Terms how about No Terms

How can I explain this to my Family

I am very Angry. Not good for a normally placid man!!
This affects my and my family's health even!

Do something before I do Please.

5/3/10
