

I would like to voice my support for wind farms in general and in particular for Portland Victoria. I have lived in Portland for the past 20 years and like the lifestyle that I can receive from living in this wonderful part of Australia. Wind farms provide:-

Sustainable energy

Tourism

Jobs

I give my support to them 100%. The latest negative press about their impact on health, I feel is unjust, and would refer these people to the overseas countries that have had wind farms for many years without any of these negative health problems.

Please give us more wind farms.

Yours faithfully

Christine Sawyer
