

This is regarding about the Migration Amendment (Visa Capping) Bill 2010 (the Bill) which is seeking to amend the Migration Act 1958 to enable the Minister for Immigration and Citizenship (the Minister) to cap visa grants and terminate visa applications based on the class or classes of applicant applying for the visa.

In particular, the Bill would enable the Minister to make a legislative instrument to determine the maximum number of visas of a specified class or classes that may be granted in a financial year to visa applicants with specified characteristics, and treat outstanding applications for the capped visa as never having been made. I have been living in Perth Australia for about last 4 years and feels it as my second home that's why I applied for General Skill visa application a year ago and have been waiting patiently for my GSM application approval for a year. I have already spent lots of time on my studies heaps of money too on my tuition fees and other expenses in order to get my education in Australia and to start my career from scratch. Now I am well settled and working hard. It is very upsetting for me after full filling all the requirement of GSM application that took lot of time, energy and money too but my application could be return back just because all of sudden authorities thinks that they should amend some rules. It is too disappointment to feel there is no consistent policy at all. This regime don't care about the international image of Australia to the rest of the world. It utterly looks unfair to me and this current government is not considering any future for those who has been waiting for their GSM visa application for 2 to 3 years. How about their time and sacrifices they did for all these recent years. Or in other words they have been used for so many years, now they should have gone back their country.

I request you kindly that please do not play with our career. If there is any rule and law, it should implement on new applicants rather than people who have already applied. This is really an unfair and unjust decision from the government of Australia. I hope that you will take my complain seriously and you will consider that bill again. Thank you.
