

Dear Senate Inquiry members,

I am writing to oppose the planned extension of the NT Intervention.

Instead I support the cooperative approach outlined in this document:

http://www.antar.org.au/cooperation_not_intervention_a_call_for_a_new_direction_in_the_northern_territory

I am particularly eager to see urgent improvements in:

- Housing
- Employment opportunities

Intervention legislation is not needed for meeting these urgent needs, and most other outcomes that are sought - health, welfare etc - will flow automatically from improvements in housing and employment.

Please register my disapproval and reject the legislation. Thank you.

Yours sincerely,

Brian Loffler
