

Hello

As a person with Type 2 Diabetes on 4 x daily Injections and on 2x medications and also on Disability Pension I can't Get the Pump or the Sensors as I can't afford it but it would help me Aa my levels are high and un controlled My Doctor said it would help me if it was available for Subsidy for type 2 diabetes as my health is not so good

Please consider this and help us type 2 diabetics

Thank you for taking time to read this letter

Kind regards
