

Joint Standing Committee on the National Broadband Network

Answers to Questions on Notice

Committee Hearing 15 August 2018

NBN Co Limited

Question No: 17

NBN Co Limited

Hansard Ref: Page 22

Topic: Pit remediation costs

Ms Susan Templeman asked:

Ms TEMPLEMAN: What would the average cost be to remediate the pits where it's required?

Mr Ryan: We would have to take that question on notice. Again, it very much depends on whether you are upgrading from an A to a B to a C, which different types of pits and the sizes you are upgrading from and to.

Answer:

As Mr Ryan mentioned, costs can vary greatly based on many factors, including the type of pit and the type of upgrade. Because of this level of complexity, and because we are still in the very early stages of the FTTC rollout, it is not yet possible to provide an indication of what costs will ultimately be incurred.
