

RE: ABC Staff and Program Cuts

Please don't proceed with ABC staff and program cuts, particularly the recently announced axing of the TV Arts unit.

Niche programming such as that produced by the TV Arts unit is one of the duties of the ABC, in order to fully reflect the diverse activities of Australians, whether popular with a large viewing demographic or not.

Please don't deny Australian artists this crucial public service, while simultaneously denying the general public an opportunity to watch intellectually stimulating programs that don't pander to a perceived market!
