

Subject: Proposed changes to the structure of Telstra

What a huge disappointment.

I voted for Labor because I thought they looked after the 'mums and dads' of Australia.

I guess I might as well give up on any hope of getting a return on the investment I put into Telstra. My decision to invest was on the basis of Telstra being a full service company.

Government decisions are now destroying the value of the company the Government sold me.

I expect to be compensated for this change of policy.
