

26 March 2014

Mr Thomas Gregory
Inquiry Secretary
Standing Committee on Social Policy and Legal Affairs

Via email:

Dear Mr Thomas

Roundtable on Drones and Privacy: Response to Question on Notice

I refer to the above Roundtable and the question on notice regarding the ratio of your membership that is privately owned as opposed to corporate farming in the Australian Pig Industry.

The Australian Pig industry comprises of 1239 commercial producers, of these 512 are members of Australian Pork Limited (APL), with 46% of members being a corporate structure. It is important to note that "corporates" are those members reporting that they have a "manager" of operations, which could include corporate family farms as well as larger corporate businesses.

Yours sincerely

DEBORAH KERR
General Manager, Policy
