

Respected Sir,

Thats very Good to Amend Law for securing border and Think about Country's future.- This Thing Happen because Many bogus Document and experience But Why I will get punishment.

MY SELF AND MY PAST-I am From science Graduate and took addmission in nursing but after did some job in that field i had realised that i made a mistake so changed to cookery that was different field and thought that i will open my fast food business in my country . Then i spent my 2 years i love this country and i applied fr PR.

Now I heard that This Law will be coming in next months.

Why Gov wants now to pass ,they could before 2 years so that time i could be plan to back but i already have 2 years from applied my PR.

My question is only one why gov wasted my 2 years and playing with my feeling. i almost spent lots of money - i am not crying for my Money but this is really unfair.

Gov should tell me before this thing so i couldn't apply my PR. Gov asked me 1 year experience which i did on 16\$ per hour and then i Quit because i have better job in my science field. unfortunately i didnt get job as cook only because of PR - 95 % owner asking PR or Cash work.

In short this is Unfair to me and others who really spent sorry wasted time here.

Thanking You
M. Patel
