Subject: Form Submission - Inquiry into Long Covid and Repeated Infection Submission
Date: Thursday, 13 October 2022 6:03:08 PM

: I have recently had Covid. I've recovered as far as outward symptoms go, took a round two weeks. Now I have definite memory gaps and cannot retain information well. This affects my high demand work to a significant degree. I'm lucky I've always had good admin systems and job tracking devices because I'm relying on them much more than normal. I consider myself lucky, I didn't die or have to be hospitalised, but I'd prefer this not to happen, and who knows if I'm infected again. I don't understand the lax attitude from government, we know there's no immunity from infection!
