Subject: Submission to Cancer Access Inquiry
Date: Monday, 23 February 2015 7:13:48 PM

To the Secretary of the Committee,

Cancer does not discriminate.

I believe that it is every Australian's responsibility to help those who are inflicted with this life destroying disease, irrespective of how much they are worth or who they are.

That's what Australians do - they give a mate a hand.

Please let's not regress into a society where one Australian is deemed worthy but another is not.

Capt. Michael Cottell
