

Subject: Submission for Australian Border Force Bill 2015
Date: Tuesday, 7 April 2015 10:59:15 AM

Hi

This Bill is an absolute disgrace and is an insult to those who have fought for human rights.

No other country actively promotes the willful oppression and violence towards those who are refugees or war. Australia has never been through such hard times, hence we do not relate to their circumstances. Taking advantage of this ignorance and allowing this system to hurt those who have come to Australia for protection, is a crime against humanity.
