

The Secretary
Australian Parliament House of Reps
Standing Committee on Education and Training

Re : INQUIRY INTO SCHOOL LIBRARIES AND TEACHER LIBRARIANS

I wish to table my concerns regarding the impact of the recent policies on school libraries.

Teacher -Librarians make an essential contribution to the learning of our students.

They bring a wide range of expertise that directly benefits the whole school community through a positive impact on teaching-learning programmes .

As such, we need to be supporting and developing this valuable role and not bring in processes which undermine the role.

Teacher-Librarians needs to receive more funding and acknowledgement of the positive impact they have on a schools ability to nurture learning.

Vicki Stevenson
