Hi,

I know submissions have closed but I wished to give an example of price discrimination that i have come up against recently.

This is by Bernafon Hearing aids,

The Remote used with the Virte 9 hearing aids cost \$360 here in Australia and I brought one from Costco in Denver USA for \$179 incl all taxes and postage. Thats >100% mark up
The hearing aids themselves costs me in Australia \$6,400 Yet I could have brought them for \$3000 fitted in the states

Just wanted to share

Andrew Whitwell
