To Whom It May Concern:

Re: Joint Committee on the National Broadband Network

I am writing this letter on behalf of Tibooburra & District, to support the rollout of the NBN, with 6 monthly reports coming back to us, starting 31st August 2011.

It would be most beneficial to have technology that provides a faster speed for all users, including the government departments, business houses, residents and our emergency services especially in these remote areas.

We would most certainly welcome as much information and reports pertaining to the rollout of the NBN as possible to be passed to the above committee via email.

Yours Sincerely

Vicki Jackson
Hon. Treasurer
Tibooburra Village Committee
