

Australian Government

Australian Government response to the
Joint Standing Committee on Foreign Affairs,
Defence and Trade report:

Review of the Defence Annual Report 2010-2011

February 2013

Recommendation 1

A Strategic Reform Program (SRP) Summary Chapter be added to the Defence Annual Report to provide a consolidated overview of the SRP.

Government Response

Agreed in part

Defence has partially met this recommendation by providing the top-level representation of SRP results for the year in the appendix. Defence has retained the integrity of the Defence Annual Report construct of outcomes, output group and programs. Thus the SRP performance is reflected within each of these elements. Future Defence Annual Reports will be structured in a similar way.
