

To Whom It May Concern

You state that migration has brought enormous benefits to Australia. I agree if you are referring to immigrants from the UK and Europe. I disagree very strongly with more recent immigrants from countries whose ideology is not combatable with ours.

We have let in far too many antagonistic peoples whose goal is to take control of the world and do away with infidels, that is you and me. These people do not assimilate and they are parasitic in that they suck illegal amounts from our welfare system. There are many other people groups who also do not assimilate, yet are happy to take advantage of our welfare system also.

As far as I am concerned multi culturalism is an abject and costly failure. You only have to look at how our society has declined since their introduction. Increased rape, drug usage, all types of violent crime.

We need to stop immigration of people who are not compatible with our way of life, immediately.

Unfortunately I only received advice about this issue at 3.30pm to-day. It has not allowed me to go into more detail.

Cordially,
