

**Australian Parliament
Joint Standing Committee on Migration
Submission no. 218**

Dear Members of our government,

Surely we do need a review as we look at what is happening in France, UK , Germany and to some extent here in Australia.

I am shocked at some attitudes, for example the Green member Fiona Byrne publicly was both racist and anti-semitic and no consequence except from voters.

If I were to make such pronouncements about other groups there would be real trouble.

We have a culture too and we expect it to be defended by those we elect.

Sincerely
