

A CITIZEN'S SUBMISSION AGAINST THE GROWING PRESENCE OF ISLAM IN AUSTRALIA

Please use this submission as required but I do not wish my name to be published -- intimidation and violence are sometimes used to silence critics.

I have been studying terrorism and Islam since before September 11th, 2001. My firm view is that Islam as a belief system is hostile to non-Muslims, lethally aggressive in its aim to subjugate everyone to Sharia law, and is inimical to Western culture's most cherished values, particularly our secular form of government, equality of everyone before the law, free speech and freedom of conscience, sexual equality and reverence for life.

I readily acknowledge that there are 'good' Muslims in the sense that many Muslim individuals may not personally practise the inhumane doctrines of Islam. However, that is not a reason for tolerating Islam in Australia. The key issue with Islam is that its doctrines are actively and openly hostile to the non-Islamic world. That's us! Consequently, an Islamic presence in Australia will always be an ideological and physical threat to our way of life. In this regard, even so called 'passive' and 'moderate' Muslims feed in support for a belief system whose ultimate aim is to destroy our Western way of life.

For the record, Islamic doctrines are flagrantly in breach of every piece of non-discrimination legislation in Australia, particularly in relation to sexual equality, sexual preference, religious belief, and marital status. A culture that mandates the killing (murders) of apostates, gays and Jews, which asserts the supremecism of Muslims over 'kuffars' (that's us again) that subordinates women, sanctions domestic violence, kills so called 'blasphemers', tolerates female genital mutilation and child brides, and which kills people (mainly women) deemed to be in inappropriate relationships, is not a culture that can have any place in Australian society. Above all, the last thing Australia needs is a fast-growing, non-integrating population of Muslims who, let's face it, are raised to despise most Western values and who are taught that 'jihad' is the their highest religious obligation.
