Dear Sirs!

In regards to your enquiry about people's opinion on multiculturalism in Australia may I present my view?

I came here about two years ago from Ukraine as a professional engineer, as Independent Skilled Migrant.
As a christian I chose Australia since she is based in christian values and she supports them. I want to get Australian citizenship and live in a christian country. According to my faith ALL people are equal,
but not all cutures and lifestyles are equally good. Also, please, whenever we use term "christian values" let's remember that the most valuable christian value is ...Christ Himself and faith in Him.
People, coming in Australia, which do not respect THIS value of Australian society most likely want to change it and adopt our culture to theirs, which will result in a conflict. Please, help our christian values be solid in Australia and value of Christ unspoiled. For this reason we are all blessed in Australia unitl even now, help us stay blessed, protect the truth.

Best reagrds,
