

23/3/11

The Migration Committee Chair
Ms. Maria Vanvakinou MP &
Dep. Chair M's Louise Markus MP.
Parliament House Canberra ACT 2600,

Dear Madam,

We read this message of yours
in our local News papers and we want to submit a few of our suggestions.

1.i. We are very upset with your rules to spend so much money to the newcomers in Australia in expense of the pre-existing migrants who have been left out including all the nationalities of the Aborigines.

1.ii. The migration must be stopped immediately and starting looking for the neglected Aborigines of which we all are obliged to them and we should be grateful to them for a number of reasons.

2. We are not racist, but the white race had the highest accidents in the work force in Australia where our grand-parents and our parents worked so much hard, so that to prepare for their children and their grand-children better positions and better jobs for us, and you take these jobs from us and you give to the newcomers. This is not fair.

3. They must work in lower jobs as our grand-parents and our parents worked (even with university degree or diploma) or High School education (in that time was more than enough). You can not take our jobs from us and give to them. If they do not like they can go back to their country. We feed them.

4. Look what happened to the detention centre. We feed them and they became aggressive towards the staff and they attack the staff. They are demanding and not grateful. They should be returned to their country. When our grandparents came to Australia, no matter if they had Education or University Degree, they worked in a factory without any safety measures and in very unhealthy conditions.

5. Now we see all Asians who come to Australia, they prefer to stay with unemployed benefit, until they find a job in their profession, instead of working in a lower jobs e.g cleaners and at the same time their wives get pregnant as soon as they come here so that not to work and pregnant again and we pay the taxes to feed them and their children. You see? This is not fair and must be stopped. Their husbands and they can go to the lower jobs than to feed them from our pockets.

6. The **main point of your task must be the support to any nationality of Aborigines**, because we the white race and the [yellow race (took all the gold and sent it to China and they declared only 5 pounds of it as we saw at the T.V.)], took from them with deception and ungratefully (as we watched at the T. V. the Teritellious Series where the Aborigines save his life and he has stolen their land and betrayed them), their land, we massacred them, we brought our diseases to them and even now still try to deceive further and to take the rest of the land by saying to them that, if they sell their earth, then they can have a better health and

education (as we saw at the T. V.)

7. This is not fair and **you must provide to all Aborigines the same rights as you provide to us for our Education Schools in their own languages plus English and with a number of Health centres even to the most remote area and social workers, Aged Carers, Disabilities in every remote area for the Aborigines and Libraries and Books in their own Languages and their own Cultures, Places for their festivities entertainments(Halls) and a lot of jobs,**

and to teach them that; they need to have their own police and police station , which of course you can support them economically to obtain(so that the white race not to kill them in the custody),and to obtain their own doctors and their own lawyers, their own nurses, priests (by encouraging their children to go on with their studies, to become one of them and to help their own people by speaking their own language and their own customs and festivities(as we saw at the T. V. a nice film of the Aborigines, they had nice customs), because anything we have, we grasped it from them.

8.i. Also most of the Africans here are aggressive as the Asians are. They are bad people and do not respect the other people. Both Asians and Africans we see here at the Preston Council have made for their children two beautiful play-grounds outside of the Preston Library and no one of the Asian bring their children to play there and they bring them inside the Library to bother all of us who read, type, study, or Internet.

8.ii. They are very annoyed and harmful people, **but the Agglosaxons are better, because they put some rules to their children at home and at the Library, and the Asians and Africans should be imposed to follow the Agglosaxons way because, it is not harmful to the other people, if they want to stay in Australia and not to bullying to us.**

8iii. The Agglosaxons are obedient and discipline in general, but not the Asians and Africans and most of the Indians in Australia are schizophrenic(perhaps this is due to the higher degree of poverty and mismanagement of their own country's policy), and most of them are very dirty at home and throw rubbish every where. The same thing with the people of FYROM = Slavoscopia they are schizophrenic too. One of them came out of his car and he tried to struggle one of us, because we had said the truth. **You should not be allowed to bring to Australia such people who are dangerous to the rest of us. If they do not want to hear the truth then they can go back to their own country.** In Australia we all have the right to express our opinion and to say the truth and the historical truth no matter how dirty it is.

9. This manoeuvre of the staff of the Libraries in Victoria must be abolished by teaching the primary school children and Kinden garden **how to scream.** This is **not a culture**, this is like a jungle with wild animals. We scream, if we are hit badly by accident or by someone, because of the pain or of the fear.

10. It could be nice idea **to make a few parks for the Aborigines to gather together with steady drinkable water available to them, toilets, kiosks, trees**

gardens and shops Banks Post Offices markets, as we have here. Also **churches or temples and cemeteries too**. They are people like us because they are black, we should not regret them.

11.All the other nationalities in Australia do not need anything. We have more than enough. What ever you provide to any nationality(white yellow, and Africans black race),then it **has to be according to his population in that area** and not as it is here in Victoria where the Greeks are too many in particular areas and there is only one Greek dictionary which is smaller than mine at home. Here in Preston every second house is Greek or the whole St is Greek We are fighting so long and still you can not have a bigger Dictionary in Greek with 1800 pages as the Italians and some other languages have. It is not fair.

12.The other suggestion of us is that: To **create something like an orphanage for the children who do not leave with both biological parents** so that the boyfriend of his mother or the girlfriend of his father will not have the opportunity to **assault and mistreat the child**, when her boyfriend is at home or his girlfriend is at home **until the child becomes 13 years old**. If the mother works then she will pay from her pocket by force. Not only to have a pleasure for herself with her boyfriend, but also to undertake her responsibilities towards the child and vice-versa for the father too.

On behalf of all of us
