

Dear Sir,

I would like to make a submission to the afore mentioned inquiry.

We hear too much of the tensions between Australians and Muslims. The Muslims on the majority, do not want to assimilate into our Australian way of life, respecting our flag and our culture. If they want to live in our great country, then they should learn to speak English, respect our laws and especially respect our great flag.

I fought in the jungles of South Vietnam under our flag and I have enormous pride and respect for it.

We see Muslim imams preaching the Koran, saying that if you are not a believer, then you are an infidel and Infidels must die. They have so much hate for those that are unlike themselves. The Netherlands have finally realised how much trouble the muslims have brought into their country. Britain is suddenly realising that they are going to have to something about the muslims there. They openly state that they will eventually have a big enough population here that they will have a muslim dominated government and a muslim Prime Minister, which incidentally, is their aim in many other countries.

Their birth rate is 2 to 3 times greater than the rest of the western world population.

What sort of Australia are we going to leave for our grandchildren?. We need to think very carefully about that. Would you like to grow up where the women are treated like cattle.

Made to dress in the Burka in our climate. Stoned to death, if she happens to be molested by some thug. The muslim way of life is not acceptable in our country if they continue to live in their enclaves and not try to become a part of our communities.

I admit there are some muslim families who do try to fit in, but they are very few.

Look at all the illegal entries by boat. Most of them are young males aged 20 to 30 yrs, or thereabout. They are jumping the queue. They are able to pay up to \$18,000.00 to get on a leaky boat, risking their lives at sea, and when they arrive, they are housed, fed, given any medical treatment they require, some are even brought to the mainland and put up in expensive accommodation at our expense. The illegals who torched the buildings on Christmas Island have not been charged as yet. They should be immediately deported to their original country. How dare they come here illegally and then destroy the shelter that has been afforded them. Are some or most of these young men being sent here as "sleepers".? It has happened around the world, so why wouldnt it happen here?

Please make the right choice and protect our Australian way of life, but more importantly, Protect our wonderful Australian way of life for our children and their children and so on.
Sincerely,
