

4 April 2011

I have been concerned for some time about the Moslem take over of many countries. I do not agree that we should allow the boat people to stay here, they are all Moslems who want to come here because of our freedom and democracy. They have no intention however of assimilating into our ways but demand we finance schools and other services for them to practice their religion. What is worse our children in schools are denied the right to put on Nativity plays, or learn about Easter, in case it offends the Moslems. Well I've got news for them. This country does not want Sharia law. We do not want our women to be treated as non persons, we do not want our grand daughters or great grand daughters to be offered as child brides to Moslem men. Moslems hate Christianity, and everything we stand for, and they have sworn they will use our laws against us, and ultimately take over the country. How can governments and many do-gooders be so blind! The spread of Islam has to be stopped.

A very concerned Christian and citizen
