## **Public hearing for inquiry into regional processing centre on Manus Island**

The Public Works Committee is holding a public hearing for the inquiry into infrastructure and upgrade works to establish a regional processing centre on Manus Island, Papua New Guinea.

The Expert Panel on Asylum Seekers Report outlined an expectation that asylum seekers who have their claims processed on Manus Island will be provided with protection and welfare arrangements consistent with Australian and Host Nation responsibilities under international law, including the United Nations Human Rights Commission Refugees Convention.

The proposed facilities on Manus Island would include:

- a 600 person regional processing centre, able to accommodate families and other vulnerable groups (which would be suitable for other cohorts if required)
- health, welfare, recreational, operational and all engineering facilities and services
- purpose built staff accommodation for 200 staff.

The estimated cost of the project is \$171.69 million. Construction is expected to be complete by January 2014.

Full details on the proposal are available on the Committee's website: [www.aph.gov.au/pwc](http://www.aph.gov.au/pwc)
