---

To whom it may concern,

As a first home buyer in 2009 my body corp was \$3200 in total as of Sep 2011 it is \$8000. \$805/quarter is insurance making it a total of \$3200 in insurance for the year on a small 2bedroom unit. As a struggling single person this price rise of 250% will make home ownership impossible and resale of my unit not viable. PLEASE HELP!

Regards Hannah Brown.
