Subject: Questions on Notice

Dear Julia

At the public hearing of the Committee's inquiry into IT Pricing, Pip Marlow undertook to provide the Committee with some further information.

Specifically the Committee asked about the percentage of R&D spend that is to be recovered in Australia. We would hope that the Committee would respect that information is commercially sensitive and we are unable to make it publicly available.

Ms Marlow also undertook to provide the Committee with consumer Estimated Retail Pricing (ERP) lists for the jurisdictions of Australia, the United States of America, the United Kingdom, New Zealand, Canada and Singapore. This list is attached.

Please don't hesitate to contact me should any of this need clarification.

Yours sincerely

Belinda Dennett
