

12th November 2010.

Mr. Tony Windsor MP
PO Box 963
TAMWORTH 2340.

RE:- Murray Darling Basin Plan.

As concerned residents of the Jerilderie district, do you realize just what impact would be had on the area, by taking water away. Farmers, small business, schools, hospitals will be affected. Towns will literally shrink or merely disappear.

Do not interfere with the system, leave it as it is. Long ago everything had its turn in the great outdoors, yes dried up but, then watered by good rains, as has happened this year. Let nature take care of itself as is happening now.

We plead with the authority to disband the whole plan of the Murray Darling Basin.

Yours sincerely

Morris & Bev. Lawton.
