

Mrs Lorraine Elgar

Hon. Sussan Ley M.P.
AMBUYST. 240

Dear Sussan,
Our family was so pleased to see your name on Tony Windsor's Inquiry Panel into the proposed Murray Darling Basin Plan. We know you will do your utmost to prevent this plan coming to fruition.

As you well know if it was to be enforced our primary producers, rural communities & all who live in these areas would be ruined. As well as the loss of primary production we would also lose our ^{tourism} second biggest industry. Who wants to visit a dust bowl? The impact this plan would have on rural communities would be disastrous & we hope yourself & others with our welfare at heart will ensure that it

is never introduced.

I would like to wish you a Merry Christmas & Best Wishes for many Happy & Prosperous years ahead. We are counting on you.

Yours faithfully,

Jessamine Wyatt & Family.
