Sc

Dear Sirs

MURRAY-DARLING INQUIRY

Is it within the terms of reference to suggest Lake Alexandrina be open to the sea and that 2,000 Gls a year not be wasted by evaporation? Or that more dams be built to eliminate cyclical water scarcity given that we now see flood phases do exist?

Yours faithfully

Terence Dwyer B.A. (Hons) B.Ec. (Hons) (Syd.) A.M., Ph.D. (Harvard), Dip Law (Syd.)
