When I sit down and watch the whole 6 speeches on Youtube of Khilafah Conference Australia 2010 it scares me to think such freedom of speech is allowed in Our Country Australia. Any fool can see that this Inquiry into Multiculturalism in Australia must raise the issue of Muslims here in Australia. Anyone who bothers to read up in the print and internet media can see that we are in the times of a silent invasion of Australia and as one Muslim said of another country and its happening here this country will be conquered peacefully by the wombs of our women.

The Muslim Brotherhood in Australia well deserves looking into. Here in Australia we have one young man, Wassim Doureihi, who MUST be by now under ASIO Surveillance and being very closely watched.

Please take the time to watch his speech in talk 6 of Khilafah Conference Australia 2010

this talk is titled Talk 6 Wassim Doureihi: Our objectives and priorities - Khilafah Conference Australia 2010

its at website URL

Multiculturalism was working well until 9/11 and the voice of Muslims and Allah...
was raised up to intimidae us Westerners. We are being silently invaded by the Muslim Culture. We are being slowly broken down by our own blind path of political correctness. We are slowly loosing our basic Australian Western Christian based style of life. We are loosing our easter bunny and christmas carols and other daily functions because some politically carected person says we must NOT offend. We ARE offending ourselves because we are allowing the muslim people to maintain their separated ways and they inturn NOT assimulating into OUR ways. They come here for a better life, BUT they are pushing on us Infadels No God But Allah and are pushing for Sharia Laws.

Lets look at England, France, Germany, Holland, Sweden and many other European Countries and the troubles they are having NOW. Thses Troubles are coming OUR way if we Australians DON"T stop all this happening here NOW!!

We value our Australian way of life. We are in danger of leaving a legacy that our children and Grandchildren just could be fighting in their own streets because WE didnt do something NOW.

We must have a Federal Government that was strong enough to stop the boats, this was working until the present Government in their lack of Judgement change the system and now adding to this problem.

I may be classed as a racist BUT Islam is a relegion NOT a race, we cannot stop it from being here, BUT we must Curb its power that is forming against us. We Must challenge and question all Muslims that openly speak out against this country like the above mentione person and the others like him.

I am not a christian but am an athiest, I do not believe in any god or gods, but I am, as an ex-serviceman of Australian Armed Forces, willing to speak up amd make my piont of veiw known. I still know how to pull a trigger if nessisary.

I am a member of Australian Defence League, who share like minded views of this Muslim Matter.

I am annoyed that Our Federal government has bent over backwards to the Muslim 2% of Austalia allowing animal cruelty in the name of Allah to allow the muslim people their Halal food, forcing us other 98% see our food produce processed in this way and therefore forced upon us.

see below:-

**HALAL Food and False Idols**

*Thursday, 03 February 2011 17:43 Geoff Dickson*
Increasingly we are confronted by Halal food products whether it is in the butcher or more likely at the Supermarket or even at fast food outlets like Subway, KFC and Nandos. Even some restaurants are openly advertising Halal food. Many people believe that Halal means that the food is fresher and hormone free, and even has been blessed so it must be a good choice. Indeed most people understand that Halal is the ritually prepared food for Islam.

But what really is the background to the Halal concept?

In this article we shall consider the nature and implications of food that has been dedicated to the Muslim “God” Allah and is so called Halal or permissible for Muslims to eat.

It all starts in the slaughterhouse or abattoir where under Islamic laws, the animal must be turned to face Mecca and a Muslim slaughterman recites the words “In the name of Allah the greatest” in Arabic, before slitting the throat with a sharp knife. The gullet and windpipe are cut and possibly one or two sets of blood vessels. As the animal is unstunned and must bleed slowly to death, this is a cruel method of slaughter, but allowed under Religious exemptions by our government.

There are costs to the processing plant to obtain Halal certification and for Islamic inspectors to approve the Halal process. Other implications are that labour is discriminatory as slaughtermen must be Muslim. Many food processors don’t want the added cost of producing both Halal and non Halal so they standardise on Halal only, even though only about 2% of Australians are Muslims.

Funds paid to Islamic organizations in this way can be used to promote Islam and even fund Jihad.

The first major implication to the consumer is that there is no choice and that the added costs of Halal certification and Islamic inspectors are passed on as higher food prices, even though the majority of Australians don’t want Halal products.

Read the last paragraph, do we want to be part of this, too late we are thanks to a weak Federal Government.

Only Senator Cory Bernardi Senator seems to have the gust to speak up. One Nation had the right Idea. We desperately need a Strong Federal Government, One that will govern for Australia and Australians even if we have to separate things we want and should do apart from UN directions.

Save it or Loose It, Its Yours and My country. Do something in the present and safe Australias future for our children and grandchildren. They WILL thanks us even if we will not be here then!
